SYN. FEMALE, WOMAN,

LADY. FEMALE (the cor-

relative of *male*) empha-

sizes the idea of sex; it

applies alike to human

beings, animals, and

plants. Its use as a synonym for *woman*, once frequent

among good writers, is now commonly tabooed. As com-

pared with *WOMAN* (the correlative of *man*), which empha-

sizes essential qualities, *LADY* (the correlative of *gentleman*)

connotes rather the external of social position or refine-

ment. *Lady* is often used as a more courteous synonym for

woman (as, Please allow these ladies to pass); but its indis-

criminate substitution for *woman* is vulgar.

SYN. FEMALE, FEMININE, WOMANLY, WOMANLIKE, WOMANISH,

EFFEMINATE, LADYLIKE. FEMALE (opposed to *male*) applies

to animals and plants as well as to human beings, and al-

ways suggests sex; FEMININE (opposed to *masculine*) de-

notes that which belongs to, or is characteristic of, women,

and often suggests gentler rather than sex; it has now prac-

tically displaced all except the more strictly physiological

senses of *female*; as, the *female* bee; the *female* ivy; a *fe-*

male slave; *feminine*, maternal hands; *feminine* virtues.

WOMANLY (often opposed to *girlish*) suggests esp. a wo-

man's deeper, tenderer, more gracious qualities; as, a *wo-*

acted off impulse. WOMANISH (compare *mannish*, *childish*)

is a term of contempt; as, your tears are *womanish*. EF-

FEMINATE emphasizes unmanly delicacy, luxuriousness, or
